Dear Sir:

I have been advised that the sleeping bags that were charged to you last fall were not checked in and that Tony Skubic was stopped at the border on his way home and charged with attempting to take Government property off the Project.

From the information I have this is a very serious offense, and inasmuch as one of these bags was charged out to you I would like to have a complete report on this so we can take action to protect yourself as well as Tony.

Very truly yours,

Art Bolier

There is certainly a lot of red tape to everything but with my experience with the store I have not had so much trouble as most of the boys.

Well tell everyone Hello and that I will write sometime if I ever get caught up.

Best Wishes tp all

Dear Charlie;

How goes the battle by you? We are all fine and things are shaping up in good shape and conditions are so much brighter than was expected by anyone that progress is being made beyond the wildest dreams.

I am most sorry for any inconvenience caused by my not being back there by the time I promised however I'll be there soon now and the books are nearly completed. They are all added all I have to do is balance them up which should not take me long. I spoke to Mr Moseley before leaving and am attaching a letter written to him on the subject. Please explain to Mr Roehbe and I will be back to face the firing squad by August 10th according to the present plans.

The temporary tot-read is up to about 160 miles already and I talked to one of the bosses up there the other day and he was telling me of having had hi-balls made of glacier ice probably 1000 years old. A cliff off to the north of the Pink Mountain that has not had much sun.

We are following behind with the main road and it is up about 25 miles now.

Will tell you more when I see you but better get busy for now.

Best Wishes

Jim
